

## COVID-19 PROCESS FOR GREATER WESTERN WASHINGTON PIPE TRADES TRAINING CENTER

### **IF YOU ARE EXPOSED TO COVID-19 or YOU ARE SICK**

If you are exposed to COVID-19 at home or on-the-job, or you are sick, please follow these steps:

1. **STAY HOME!** Follow any quarantine procedure the Washington State Health Department gives you.
2. **Contact the Training Center AND your job for EACH DAY YOU MISS!**
  - Call or email your Training Director
    - Ryan Santeford (360) 486-9442, Ryan@local26training.org
    - Seth Thompson (360) 486-9401, Seth@local26training.org
    - Seth White (360) 486-9472, SWhite@local26training.org
    - Jud Hildebrandt (360) 486-9403, Jud@local26training.org
    - If after hours, call the Training Center at (360) 486-9400 ext. 400 – you must leave a message.
  - Contact your foreman every day you miss **SCHOOL AND WORK**
3. **Follow the COVID-19 testing protocols from your health care provider.** Some hospitals, urgent care and doctors are asking patients to not come to a facility and expose others. If you are “healthy enough” to recover at home, follow those directions.
4. **If you are diagnosed positive for COVID-19, PLEASE INFORM THE TRAINING CENTER.** This way, we can take precautions to prevent the spread of this virus amongst staff and apprentices/journeymen.
5. The Training Center will not require doctor’s notes during this crisis. HOWEVER, we will be checking to make sure you are not skipping classes and continuing to work.
6. If you live with or care for vulnerable people, please take every precaution to limit your exposure. Let us know if this is an issue for you.

### **WHERE TO GET ACCURATE INFORMATION**

There are many conflicting news sources, and information about COVID-19 continues to evolve. We are reviewing directives from the Washington State Department of Health, which is following the Center for Disease Control guidelines. Please follow their recommendations to reduce your risk of contracting this virus.
